<b>Target version:</b>	1.0	<b>Spent time:</b>	0.00 hour
<b>Description</b>			
Haizea uses at least two Python features that have been deprecated in Python 2.6:			
<ul style="list-style-type: none"><li>• The <i>new</i> constructor (in the Singleton class) with arguments</li><li>• The message attribute of BaseException</li></ul>			
Code should be updated to no longer use these and any other features deprecated in Python 2.6			

### History

#### #1 - 09/04/2009 10:59 AM - Borja Sotomayor

- Status changed from New to Assigned

- % Done changed from 0 to 50

The use of the new constructor in the Singleton class was solved in [r667](#) when switching to a new Singleton class implementation.
